

Kernactiviteit

Testronic Laboratories specialises in multimedia quality assurance for all types of content (film, game, music, etc.) on all mediums (DVD, HD-DVD, Blu-ray, CD, online, wireless, etc.) for all devices (optical players, PC, mobile equipment, game consoles, etc.). This is managed by 6 closely linked divisions: Video/Audio, Games, Software, Hardware and On-Site Testing.

We offer a wide variety and flexibility of services including software testing, hardware testing, device compatibility, Functionality, Content Verification & Compliance, Localisation Testing, Controlled Copy Protection Technology, Load Testing and a range of field services at the client's facility.

Situering lidmaatschap

MediaNet Vlaanderen is an important forum for exchanging knowledge and information, enabling professionals in this field to become better acquainted. MediaNet can also be used as a platform to voice common opinions towards the authorities. It goes without saying that we will gladly put our expertise in quality assurance at the disposal of all the companies in the field.
